Professional Summary

React Native Developer with over 6+ years of experience building high-performance, cross-platform mobile applications using **React Native, Expo, Javascript, TypeScript Redux, Unit Testing, Performance Testing** **Firebase**, and **REST APIs**. Adept at delivering scalable, secure, and user-centric mobile solutions across **banking, retail, and ed-tech** industries. Recognized for clean architecture, agile collaboration, and deep debugging expertise. Passionate about performance optimization and mobile innovation

Professional Experience

- Senior Software Engineer, Xebia** *(Contracted Via Horizontal Talent)*

2025

 - Led the development of scalable cross-platform mobile applications using **React Native, TypeScript**, and **Redux**, ensuring high performance and maintainable architecture.
 - Reviewed and approved **Pull Requests (PRs)**, enforcing coding standards, best practices, code quality, and application performance guidelines.
 - Mentored junior developers through code reviews, technical guidance, and knowledge-sharing sessions, improving team productivity and development standards.
 - Designed and implemented **CI/CD pipelines** for automated build, testing, and deployment processes across Android and iOS platforms.
 - Collaborated with product managers, designers, backend engineers, and QA teams to gather requirements, define technical solutions, and deliver high-quality features on schedule.
 - Worked closely with backend teams to integrate **RESTful APIs**, manage application state, and ensure seamless user experiences across platforms.
 - Participated in architectural discussions, technical planning, and estimation activities to support scalable and maintainable mobile solutions.
- React Native Developer, Xebia** *(Contracted via Telemerge IT Services)*

05/2024 – 07/2025
Mumbai, India

 - Building and maintaining Yes Bank’s flagship mobile banking app with React Native and native SDK integrations.
 - Developing scalable UI components and secure features compliant with banking regulations and brand guidelines.
 - Integrating RESTful APIs in collaboration with backend teams to ensure secure and seamless data flows.
 - Contributing to Agile sprint planning, daily standups, and peer code reviews to ensure timely and high-quality delivery.
 - Optimizing app performance and adhering to strict security standards for financial applications. Maintaining performance and security standards required for financial apps.

React Native Developer, Singleinterface - Developed and maintained cross-platform mobile applications using React Native, JavaScript, Redux, and Redux-Saga. - Integrated Firebase services including Realtime Database and Push Notifications to support live updates and user engagement. - Collaborated with UI/UX designers and backend developers to deliver seamless user experiences with secure API integrations. - Implemented JWT-based authentication and configured Google Analytics via Google Tag Manager (GTM) for user behavior tracking. - Optimized app performance by profiling renders, reducing bundle size, and implementing efficient state management patterns. - Followed Agile development processes including daily standups, sprint planning, and peer code reviews.	05/2022 – 04/2024
Curriculum Associate/React Native Developer, WhiteHat Jr (BYJU'S Future School) - Created Interactive curriculum projects using React Native ,Expo JavaScript,Redux HTML, CSS, and Firebase - Designed modules focused coding and logic development for young learners.	06/2020 – 05/2022
Technical Support Engi, Clover Infotech - Handled database operations with SQL Developer and Oracle 12c. - Generated and automated reports using iReport/Jasper. - Coordinated across departments to maintain application and database reliability	09/2019 – 03/2020
Senior Support Engiear, CAPIOT Software Inc. Monitored services and servers using Riverbed ang op Maragar. Used FLK Stack to identify and troubleshoot application issues in real Manages Incident resolution dashboards and Si A-driven alerts.	11/2018 – 09/2019
Support Engineer, Ensure Support Services India Ltd. - Provided L2 support for POS systems and Linux-based deployments. - Installed and configured POS software, NAS storage, and MySQL backups. - Collaborated with onsite teams for remote issue resolution.	01/2017 – 11/2018

Education

Master of Computer Application, Jaliour National University	2018
Bachelor of Computer Application, Mahatma Gandhi University	2016

Skills

Languages & Frameworks

React Native, JavaScript, TypeScript, Redux, Redux-Saga, React Navigation Mobile, Adobe A core SDK

Development

Hirebase (Auth, Firestore, Realtime DB), Push Notifications (Notifen), In App Notification

Testing & Debugging

Applum, Chrome Debugger, Flipper Dev Tools & Utilities: Git, Postman, JWT, 3itrise, Figma Other: REST APIs, Google Analytics, Agile/Scrum REST APIE, Google Analytics, Google Tag Manager

Additional Information

English

Fluent in English written and verbal)

Industry exposure

Retail, Travel & Tourism, Ed-tech, Finance and banking

Skilled

debugging, performance tuning, and cross-platform deployment

Projects

Kotak Mobile Banking

2025

Worked on the development and maintenance of a secure, high-performance React Native mobile banking application for Small and Medium Enterprises (SMEs). Contributed to building customer-facing features that enable business users to manage accounts, perform banking transactions, view account statements, approve payments, and access various digital banking services through a seamless mobile experience.

IRIS-YES BANK, A secure and scalable mobile banking application developed for YES BANK, enabling users to manage their finances, make transactions, and access banking services with ease. I'm uhasis on user security, real-time data and modular feature rollouts. Tech Stack: React Native, Redux, Javascript, Firebase, REST APIs, Git, Native SDKs, Role: Feature Development, Integration, and Maintenance within Agile teams

SIConnect, A mobile platform that helps local businesses establish a digital presence and engage customers online. Tech Stack: React Native, Redux, Firebase, JavaScript Role: Individual Contributor and Team Collaborator

Bharat Shop, A customizable eCommerce platform for local retailers to launch digital storefronts. Tech Stack React Native, Redux, Firebase Role: Full cycle development from UI to deployment

HighScope (Freelance Project)

Developed a cross-platform mobile app for a school ecosystem, enabling seamless communication between teachers and parents. Implemented features like daily activity tracking, announcements, attendance, and progress updates. Integrated REST APIs, push notifications, and optimized the app for performance across Android and iOS platforms.

Certifications

- Advanced React Native Development-Udemy
- SQL & Database Management-Coursera
